Dear Lou,

We have been in our new house almost three years now and I can tell you that we are enjoying it immensely. Time has shown that we made a great decision in selecting you as our builder. The quality of the construction is demonstrable as we have weathered the elements since we took occupancy.

Right from the beginning, it was a pleasure dealing with you and with your employees. We always found everyone to be professional at their jobs and in their dealings with us. I usually appreciated your suggestions in regard to the many potential problems that can arise in construction. You always seemed to try to keep me from making errors in my decisions. Fortunately, I listened - sometimes. As a result, we have a home that required only minor corrections during and after construction.

I also want to note that we have been extremely pleased with how you have handled any of our minor concerns after we took occupancy. It's a tribute to you and the classy operation you run.

As you already know, we have and will continue to recommend you whenever the opportunity arises.

Best of luck in all your future endeavors.

With warm personal regards,

Thomas J. Dailey
